OUR PHILOSOPHY

DIRECTOR'S MESSAGE

Greetings!

It has been five years since the launch of our global sport development initiative, Dream Together Master, which is a graduate program to educate future global leaders in sport management at Seoul National University.

With much gratitude and appreciation, this unprecedented initiative is drawing positive attention from not only within Korea, but from all over the world and continues to grow in prestige and excellence.

The contemporary sport has made great progress. Still, many nations have yet to maximize the full potential of sport in changing life and society. We believe that the best way to promote sport development in the world is to identify, train, and connect the next generation sport administrators who will provide global leadership.

The Dream Together Master offers a master's degree in sport management at Seoul National University. Under a supportive environment, the program provides a curriculum embracing a range of 30 topics to help our students stay relevant and reach their full potential. This program offers full scholarships which cover students' tuition, living expenses and flight tickets.

The Dream Together Master is part of a national project funded by the Korean Ministry of Culture, Sports and Tourism (MCST) and the Korea Sports Promotion Foundation (KSPO). Without the ardent support of the MCST and KSPO, this program would not be feasible.

By joining the Dream Together Master, students will acquire the knowledge and skills to become global sport leaders through our world-leading faculty members from all over the world as well as Seoul National University. Students will gain a powerful alumni network that extends around the globe. In the near future, we expect students to become active leaders who promote international sport development.

We dream for the day when all the countries throughout the world enjoy and appreciate the benefits of sport. We welcome you join us in realizing this dream at one of the premier sport management programs worldwide.

ENDORSEMENT

GLOBAL LEADERS IN INTERNATIONAL SPORT ORGANIZATIONS

Barry Maister

Member, International Olympic Committee (NZL)

The Dream Together Master program is based on academic rigour and best practice management. The IOC is very keen to invest in the growth of sports management expertise around the world. The Seoul National University has initiated and developed this program, which is growing in stature and importance. I endorse this program without any reservations.

Maxwell De Silva

Secretary General, National Olympic Committee of Sri Lanka

The Dream Together Master's curriculum is very comprehensive which is commendable. In particular, I would like to praise the study methods, experts, international professors' guidance and availability of world class staff.

DTM FACULTY

Packianathan Chelladurai

Professor, Troy University, U.S.A.

Scheduling of the classes, the classroom, the audiovisual aids in the room and the technical assistance were outstanding. I am impressed with the very rigorous method of selecting the candidates for the course from around the world and I am proud to be associated with the program.

WORLD'S SPORTS STARS

Ji-Sung Park

Former Football Player of Korea National Team & Manchester United, English Premier League, U.K./Current Club Ambassador at Manchester United, English Premier League, U.K.

Seoul National University has made a remarkable approach to assessing priority needs of the participants and providing opportunities for them to become global sport administrators. DTM program has generated a platform for the students to build global networks and to interact with the world-renowned faculty.

Chan-Ho Park

Former Baseball Player of Korea National Team/Former Major League Baseball (MLB) Player of Los Angeles Dodgers, U.S.A.

Being a professional baseball player overseas, I always wished for a program that provides high quality education to train and foster sport players and administrators. I am very delighted that a such program now exists in my own country, Korea. I highly recommend current sports players and administrators to join the DTM program at one of the most prestigious universities in the world.

Wilfried Lemke

Former Special Adviser to the United Nations Secretary-General Ban Ki-moon on Sport for Development and Peace

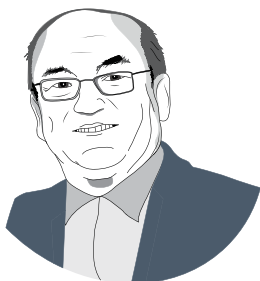

I was in particular impressed by the vision of the faculty, which is to train future sport administrators. Such vision is as relevant as it can get to my role as a Special Advisor since it is also my objective to widen access of sport to as many people around the world. It is my hope that this Master's program will be able to cultivate and inspire future leaders in the world of sport.

Roland Naul

Vice-President of the Willibald Gebhardt Research Institute, Germany

The Republic of Korea is giving an opportunity to young people who otherwise would never have a chance to be a part of such an academic program. I am sure the DTM students will become good role models for the next generation in their home countries and will be grateful lifelong for the academic support they received from Korea.

Ian Henry

Professor, Loughborough University, U.K.

Dream Together Master program is a tightly defined and designed program which brings together a truly global audience to address key issues pertaining to sport management and policy in our increasingly globalized context. Colleagues on the teaching program are all academics of international reputation, and the administration of this program has been accomplished in an efficient manner.

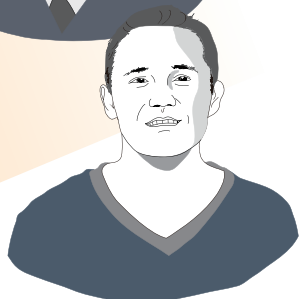

DTM ALUMNI

Md Musaraf Husain Molla

Director, Bangladesh Institute of Sports, Bangladesh,
DTM Class of 2016

I feel grateful for what I have experienced from the Dream Together Master program. Through this program, I have learned diverse subjects related to sport management and gained skills and knowledge to become a future global sport administrator.

Isai Cruz

Strategic Director of Sports Science Centre, Guatemalan Sports Confederation,
Guatemala, DTM Class of 2015

I truly believe the DTM program is the best sport management program in the world because it considers an integral perspective of education in potential leaders from underdeveloped countries. This program allowed me to make strong friendship with other international students who I will remember forever.

WHY SEOUL NATIONAL UNIVERSITY?

As the academic hub of Asia, Seoul National University (SNU) is an ideal institution in realizing the visions of the Dream Together Master. SNU offers a world-class education and a wealth of extraordinary opportunities that only SNU can offer.

A TRADITION OF EXCELLENCE

Since its foundation in 1946, Seoul National University has been the undisputed leader of higher education in Republic of Korea and has established a global reputation. Seoul National University (SNU) is ranked 1st in Asia and 7th in the world according to the 2017 Quacquarelli Symonds (QS) World University Rankings by Sports-Related Subjects. Also, SNU was ranked 35th in the 2016-2017 QS World University Rankings, and it was the only institution among Asia's top-10 universities that offers both Master's and Ph.D. degrees in Sport Management.

WORLD-CLASS EDUCATION

Since its beginning, SNU has been the cradle of liberal education and fostered a lifelong love of learning in our students. SNU trains the most outstanding students in a wide array of areas in its master's and doctorate programs. The resulting report of satisfaction level among the graduates and career advantage is the highest in the nation.

EXTRAORDINARY ALUMNI NETWORKS

Alumni network at SNU is one of the most prominent and strongest in Korea. SNU's distinguished graduates include key figures in all sectors within Korea as well as in international community. SNU's distinguished graduates include the Former Secretary-General of United Nations Ban Ki-Moon among others.

TRULY GLOBAL CAMPUS

As SNU embraces its vision of becoming a truly global university, there will be greater emphasis put on diversity and international community on campus than ever before. It continues to promote international collaborations and has academic exchange agreements with around 1000 universities and research institutes worldwide.
